	<p>Record review on 6/12/17 revealed a Summary of Findings regarding an incident which occurred on 12/16/16 involving Client #25. The report documented the client alleged staff pulled his/her hair during a restraint. The facility completed an investigation and determined no purposeful action by staff occurred but the client's hair might have been pulled inadvertently during the behavioral situation. The Behavior Specialist documented she did not find reason to report the situation as an incident of abuse to DIA.</p> <p>Further record review identified an Incident Report dated 5/27/17, documenting a scratch on Client #16's face. The Incident/Accident Investigation Form completed on 5/30/17 by the Program Director (PD) documented the injury was a result of the client falling in a ditch during an elopement incident. Attached to the Investigation form included statements from staff describing the behavioral situation which included the client's elopement and staff response. Also attached was a Contact Form completed by Client #16. The client documented staff had hit him/her, grabbed and pulled his/her and scratched his/her face. The facility information concluded staff had not exited their vehicle at the time of the incident (witnessed by several staff) therefore could not have had hands on the client. The facility concluded the incident could not be substantiated</p>
