The following definitions are relevant:

A regulatory insufficiency requires a plan of correction to be presented to, and approved by, the Department of Inspections and Appeals (DIA).

Plan of Correction - A written response to one or more regulatory insufficiencies that are rule violations [321 IAC 25.8(3)]. The plan should identify how, and by a specific date, an insufficiency will be corrected. Depending on the circumstances, DIA may re-visit the assisted living program to confirm progress in fulfilling a plan's corrective measures.
