The following definitions are relevant:

Regulatory Insufficiency - A violation of a statutory or rule provision within the Iowa Code or Iowa Administrative Code (IAC) governing assisted living programs. A regulatory insufficiency requires a plan of correction to be presented to, and approved by, the Department of Inspections and Appeals (DIA).

Plan of Correction - A written response to one or more regulatory insufficiencies that are rule violations [321 IAC 25.8(3)]. The plan should identify how, and by a specific date, an insufficiency will be corrected. The plan is due to DIA within ten (10) working days of the program's receipt of a Recertification Monitoring Evaluation Report. Depending on the circumstances, DIA may revisit the assisted living program to confirm progress in fulfilling a plan's corrective measures.

Dementia-specific assisted living program - An assisted living program certified under this chapter that either serves five or more tenants with dementia or cognitive disorder staged between 4 and 7 on the Global Deterioration Scale or holds itself out as providing specialized care for persons with cognitive disorder or dementia, such as Alzheimer's disease, in a dedicated setting.

PLAN OF CORRECTIONS

Prairie View Inn will consistently ensure its personnel who are responsible for preparing and or serving food or both preparing and serving food, shall have an orientation on sanitation and safe food handling prior to handling food and shall have an annual in-service training on food protection.

This will be met by incorporating the following practices:

- At orientation by using the attached sheet to educate new hires. This will be the responsibility of the facilities human resource manager.
- The facility will hold at a minimum one in-service a year on the proper food handling and food protection. The first one is scheduled to occur on March 13, 2008. The education will be introduced by the dietary supervisor whom currently is certified by the American Dietetic Association, copy of which is attached.
