RE: Final Recertification Monitoring Evaluation Report – Southfield Assisted Living, Webster City, IA

Dear Ms. Halverson:

Enclosed is the **Final Recertification Monitoring Evaluation Report** completed by the Department of Inspections and Appeals (DIA) in accordance with Iowa Code chapter 231C and Iowa Administrative Code (IAC) chapters 481–67 and 481–69. **No Regulatory Insufficiencies were found during this evaluation.**

The review of the recertification documents you submitted has been completed and are accepted. In addition, the State Fire Marshal's (SFM) inspection report has been received as well as the Facility Engineer's approval of the Evacuation Plans for your program.

Enclosed you will find the Assisted Living Program Certificate **S0141** with effective dates of **May 16, 2010** through **May 15, 2012**.

If you have any questions regarding this certification, please contact me at 515-281-5003.

Sincerely, -

Connie Schaffer

Certification Coordinator – Central/Eastern Iowa

Webster City, IA 50595-3514

Date of Monitoring Visit:

June 23, 2010

Monitor(s):

Hal L. Chase, RN BSN MPH

Definitions:

The following definitions are relevant:

Regulatory Insufficiency - A violation of a statutory or rule provision within the Iowa Code or Iowa Administrative Code (IAC) governing assisted living programs. A regulatory insufficiency requires a plan of correction to be presented to, and approved by, the Department of Inspections and Appeals (DIA).

Plan of Correction - A written response to one or more regulatory insufficiencies that are rule violations. IAC r. 481-67.10(5). The plan should identify how, and by a specific date, an insufficiency will be corrected. The plan is due to DIA within ten (10) working days of the program's receipt of a Recertification Monitoring Evaluation Report. Depending on the circumstances, DIA may revisit the assisted living program to confirm progress in fulfilling a plan's corrective measures.

Dementia-specific assisted living program - An assisted living program certified under 481 IAC chapter 69 that: serves fewer than fifty-five (55) tenants and has five (5) or more tenants who have dementia between Stages 4 and 7 on the Global Deterioration Scale or serves 55 or more tenants and 10 percent or more of the tenants have dementia between Stages 4 and 7 on the Global Deterioration Scale or holds itself out as providing specialized care for persons with dementia, such as Alzheimer's disease, in a dedicated setting.

Overview:

An on-site monitoring evaluation was conducted at Southfield Assisted Living on June 23, 2010. In preparing this report, the following information was considered:

Current Program Census:

General Population Program (GPP)* – A program that is not a Dementia Specific program, but may have tenants with cognitive disorder.

Current number of tenants without cognitive disorder:	28
Current number of tenants with cognitive disorder:	1
Total Population:	29

Dementia Specific Program (DSP)* – Not applicable.

***These are the census numbers represented by the program to be applicable at the time of the on-site.**

Tenant/Family Satisfaction Results – A community meeting was held with 27 tenants attending. Tenants stated they liked living at the program; it's a "home like environment." The building and grounds were "very clean." Tenants stated staff demonstrated compassion and showed they cared for the tenants well-being. Staff were polite, courteous and trained to provide the services needed. Tenants stated they like the food prepared and are offered a variety of fruits and vegetables. Tenants stated the manager listened to their concerns and came up with solutions when necessary. Tenants felt safe and received the services they had contracted for. They made their own decisions and were generally satisfied with the program and would recommend it to family and friends.

Program History – There have been no substantiated Regulatory Insufficiencies during this recertification period.

On-Site Monitoring Evaluation – The monitor(s) made the observations detailed in the following areas. There were no regulatory insufficiencies during this onsite investigation.

Dated this 5th day of July, 2010.
