**RE: Final Recertification Monitoring Evaluation Report – Parkview Assisted Living,
Fairbank, IA**

Dear Ms. Rochette:

Enclosed is the **Final Recertification Monitoring Evaluation Report** completed by the Department of Inspections and Appeals (DIA) in accordance with Iowa Code chapter 231C and Iowa Administrative Code (IAC) chapters 481–67 and 481–69. **No Regulatory Insufficiencies were found during this evaluation.**

The review of the recertification documents you submitted has been completed and are accepted. In addition, the State Fire Marshal's (SFM) inspection report has been received as well as the Facility Engineer's approval of the Evacuation Plans for your program.

Enclosed you will find the Assisted Living Program Certificate **S0189** with effective dates of **May 7, 2010** through **May 6, 2012**. Please note the corrections on the certificate.

If you have any questions regarding this certification, please contact me at 515/281-5003.

Sincerely,

Tamara Halvorson

Date of Monitoring Visit:

August 24, 2010

Monitor(s):

Joyce Kix, RN

Definitions:

The following definitions are relevant:

Regulatory Insufficiency - A violation of a statutory or rule provision within the Iowa Code or Iowa Administrative Code (IAC) governing assisted living programs. A regulatory insufficiency requires a plan of correction to be presented to, and approved by, the Department of Inspections and Appeals (DIA).

Plan of Correction - A written response to one or more regulatory insufficiencies that are rule violations. IAC r. 481-67.10(5). The plan should identify how, and by a specific date, an insufficiency will be corrected. The plan is due to DIA within ten (10) working days of the program's receipt of a Recertification Monitoring Evaluation Report. Depending on the circumstances, DIA may revisit the assisted living program to confirm progress in fulfilling a plan's corrective measures.

Dementia-specific assisted living program - An assisted living program certified under 481 IAC chapter 69 that: serves fewer than fifty-five (55) tenants and has five (5) or more tenants who have dementia between Stages 4 and 7 on the Global Deterioration Scale or serves 55 or more tenants and 10 percent or more of the tenants have dementia between Stages 4 and 7 on the Global Deterioration Scale or holds itself out as providing specialized care for persons with dementia, such as Alzheimer's disease, in a dedicated setting.

Overview:

An on-site monitoring evaluation was conducted at Parkview Assisted Living on August 24, 2010. In preparing this report, the following information was considered:

Current Program Census:

General Population Program (GPP)* – A program that is not a Dementia Specific program, but may have tenants with cognitive disorder.

Current number of tenants without cognitive disorder:	17
Current number of tenants with cognitive disorder:	0
Total Population:	17

Dementia Specific Program (DSP)* – Not applicable.

***These are the census numbers represented by the program to be applicable at the time of the on-site.**

Tenant/Family Satisfaction Results – A community meeting was held with ten tenants present. The tenants reported the program was a safe place to live and the food was good. The tenants reported there were plenty of activities offered. The nursing services were available as needed and staff were prompt to answer their requests. The tenants said they would definitely recommend the program to family and friends.

Program History – There have been no substantiated Regulatory Insufficiencies during this recertification period.

On-Site Monitoring Evaluation – There were no insufficiencies identified during the recertification evaluation completed August 24th, 2010.

Dated this 30th day of August, 2010.
