RE: Final Recertification Monitoring Evaluation Report – Turner Pointe Assisted Living, McGregor, IA

Dear Ms. Leachman:

Enclosed is the **Final Recertification Monitoring Evaluation Report** completed by the Department of Inspections and Appeals (DIA) in accordance with Iowa Code chapter 231C and Iowa Administrative Code (IAC) chapters 481–67 and 481–69. **No Regulatory Insufficiencies were found during this evaluation.**

The review of the recertification documents you submitted has been completed and are accepted. In addition, the State Fire Marshal's (SFM) inspection report has been received as well as the Facility Engineer's approval of the Evacuation Plans for your program.

Enclosed you will find the Assisted Living Program Certificate **S0246** with effective dates of **December 6, 2010 through December 5, 2012.**

If you have any questions regarding this certification, please contact me at 515/281-4116.

Sincerely,

Jim Berkley

McGregor, IA 52157

Date of Monitoring Visit:

March 31, 2011

Monitor(s):

Lori Miner, RN BSN

Definitions:

The following definitions are relevant:

Regulatory Insufficiency - A violation of a statutory or rule provision within the Iowa Code or Iowa Administrative Code (IAC) governing assisted living programs. A regulatory insufficiency requires a plan of correction to be presented to, and approved by, the Department of Inspections and Appeals (DIA).

Plan of Correction - A written response to one or more regulatory insufficiencies that are rule violations. IAC r. 481-67.10(5). The plan should identify how, and by a specific date, an insufficiency will be corrected. The plan is due to DIA within ten (10) working days of the program's receipt of a Recertification Monitoring Evaluation Report. Depending on the circumstances, DIA may revisit the assisted living program to confirm progress in fulfilling a plan's corrective measures.

Dementia-specific assisted living program - An assisted living program certified under 481 IAC chapter 69 that: serves fewer than fifty-five (55) tenants and has five (5) or more tenants who have dementia between Stages 4 and 7 on the Global Deterioration Scale or serves 55 or more tenants and 10 percent or more of the tenants have dementia between Stages 4 and 7 on the Global Deterioration Scale or holds itself out as providing specialized care for persons with dementia, such as Alzheimer's disease, in a dedicated setting.

Overview:

An on-site monitoring evaluation was conducted at Turner Pointe Assisted Living on March 31, 2011. In preparing this report, the following information was considered:

Current Program Census:

General Population Program (GPP)* – A program that is not a Dementia Specific program, but may have tenants with cognitive disorder.

Current number of tenants without cognitive disorder: 4

Current number of tenants with cognitive disorder: 0

Total Population: 4

Dementia Specific Program (DSP)* – Not applicable.

***These are the census numbers represented by the program to be applicable at the time of the on-site.**

Tenant/Family Satisfaction Results – A meeting was held with two tenants. It was reported the apartments, building, and grounds were kept clean. Sidewalks were kept clear during the winter months. The food was described as good with the hot foods hot. There were enough activities offered and the tenants indicated it was not a problem to attend activities in the attached care center. The tenants described the staff as very good. It was reported that it took less than five minutes for staff to respond when needed, and were able to provide the services needed. The tenants reported the best thing about the program was that they were able to make their own decisions and could be independent. The tenants were generally satisfied with the program and would recommend it to others.

Program History – There are no substantiated Regulatory Insufficiencies this certification period.

On-Site Monitoring Evaluation – The monitor(s) made the observations detailed in the following areas. There were no regulatory insufficiencies noted during this onsite investigation.

Dated this 4th day of April, 2011.
