Cathi Burnette, Manager
Arlington Place
95 D Avenue
Grundy Center, IA 50638**RE: Final Recertification Monitoring Evaluation Report – Arlington Place, Grundy Center, IA**

Dear Ms. Burnette:

Enclosed is the **Final Recertification Monitoring Evaluation Report** completed by the Department of Inspections and Appeals (DIA) in accordance with Iowa Code chapter 231C and Iowa Administrative Code (IAC) chapters 481–67 and 481–69. **No Regulatory Insufficiencies were found during this evaluation.**

The review of the recertification documents you submitted has been completed and are accepted. In addition, the State Fire Marshal's (SFM) inspection report has been received as well as the Facility Engineer's approval of the Evacuation Plans for your program.

Enclosed you will find the Assisted Living Program Certificate **S0112** with effective dates of **April 13, 2011** through **April 12, 2013**.

If you have any questions regarding this certification, please contact me at 515/281-7039.

Sincerely,

*Rose Boccella*Rose Boccella

Assisted Living Program
Final Recertification Monitoring Evaluation Report**

Assisted Living Program:

Cathi Burnette, Manager
Arlington Place
95 D Avenue
Grundy Center, Iowa 50638

Date of Monitoring Visit:

April 20, 2011

Monitor(s):

Maribeth Freland RN

Definitions:

The following definitions are relevant:

Regulatory Insufficiency - A violation of a statutory or rule provision within the Iowa Code or Iowa Administrative Code (IAC) governing assisted living programs. A regulatory insufficiency requires a plan of correction to be presented to, and approved by, the Department of Inspections and Appeals (DIA).

Plan of Correction - A written response to one or more regulatory insufficiencies that are rule violations. IAC r. 481-67.10(5). The plan should identify how, and by a specific date, an insufficiency will be corrected. The plan is due to DIA within ten (10) working days of the program's receipt of a Recertification Monitoring Evaluation Report. Depending on the circumstances, DIA may revisit the assisted living program to confirm progress in fulfilling a plan's corrective measures.

Dementia-specific assisted living program - An assisted living program certified under 481 IAC chapter 69 that: serves fewer than fifty-five (55) tenants and has five (5) or more tenants who have dementia between Stages 4 and 7 on the Global Deterioration Scale or serves 55 or more tenants and 10 percent or more of the tenants have dementia between Stages 4 and 7 on the Global Deterioration Scale or holds itself out as providing specialized care for persons with dementia, such as Alzheimer's disease, in a dedicated setting.

Overview:

An on-site monitoring evaluation was conducted at Arlington Place on 4-20-11. In preparing this report, the following information was considered:

Current Program Census:

General Population Program (GPP)* – A program that is not a Dementia Specific program, but may have tenants with cognitive disorder.

Current number of tenants without cognitive disorder: 23

Current number of tenants with cognitive disorder: 1

Total Population: 24

Dementia Specific Program (DSP)* – Not applicable.

***These are the census numbers represented by the program to be applicable at the time of the on-site.**

Tenant/Family Satisfaction Results – A community meeting was held with 2 tenants. Tenants reported general satisfaction with the program. They reported respectful staff interaction and timely response to calls made using emergency pendants. The tenants reported the food was palatable and the provision of scheduled activities plentiful. They reported the environment to be clean and safe, acknowledging they would recommend the program to others.

Program History – The program did not receive any regulatory insufficiencies during this certification period.

On-Site Monitoring Evaluation – The monitor(s) identified no insufficiencies during the onsite recertification visit.

Dated this 20th day of April, 2011.
