RE: Final Recertification Monitoring Evaluation Report – Martina Place Assisted Living, Johnston, IA

Dear Ms. Brown:

Enclosed is the **Final Recertification Monitoring Evaluation Report** completed by the Department of Inspections and Appeals (DIA) in accordance with Iowa Code chapter 231C and Iowa Administrative Code (IAC) chapters 481–67 and 481–69. **No Regulatory Insufficiencies were found during this evaluation.**

The review of the recertification documents you submitted has been completed and are accepted. In addition, the State Fire Marshal's (SFM) inspection report has been received as well as the Facility Engineer's approval of the Evacuation Plans for your program.

Enclosed you will find the Assisted Living Program Certificate **S0002** with effective dates of **June 1, 2011** through **May 31, 2013**.

If you have any questions regarding this certification, please contact me at 515/281-7039.

Sincerely,

Rose Boccella

Christine Brown, Administrator
Martina Place Assisted Living
5815 Winwood Dr.
Johnston, IA 50131

Date of Monitoring Visit:

May 11, 2011

Monitor(s):

Hal L. Chase, RN BSN MPH

Definitions:

The following definitions are relevant:

Regulatory Insufficiency - A violation of a statutory or rule provision within the Iowa Code or Iowa Administrative Code (IAC) governing assisted living programs. A regulatory insufficiency requires a plan of correction to be presented to, and approved by, the Department of Inspections and Appeals (DIA).

Plan of Correction - A written response to one or more regulatory insufficiencies that are rule violations. IAC r. 481-67.10(5). The plan should identify how, and by a specific date, an insufficiency will be corrected. The plan is due to DIA within ten (10) working days of the program's receipt of a Recertification Monitoring Evaluation Report. Depending on the circumstances, DIA may revisit the assisted living program to confirm progress in fulfilling a plan's corrective measures.

Dementia-specific assisted living program - An assisted living program certified under 481 IAC chapter 69 that: serves fewer than fifty-five (55) tenants and has five (5) or more tenants who have dementia between Stages 4 and 7 on the Global Deterioration Scale or serves 55 or more tenants and 10 percent or more of the tenants have dementia between Stages 4 and 7 on the Global Deterioration Scale or holds itself out as providing specialized care for persons with dementia, such as Alzheimer's disease, in a dedicated setting.

Overview:

An on-site monitoring evaluation was conducted at Martina Place Assisted Living on May 11, 2011. In preparing this report, the following information was considered:

Current Program Census:

General Population Program (GPP)* – A program that is not a Dementia Specific program, but may have tenants with cognitive disorder.

Current number of tenants without cognitive disorder:	53
Current number of tenants with cognitive disorder:	3
Total Population:	56

Dementia Specific Program (DSP)* – Not applicable.

***These are the census numbers represented by the program to be applicable at the time of the on-site.**

Tenant/Family Satisfaction Results – A community meeting was held with 32 tenants. Tenants reported living at the program was a good alternative to living at home. Housekeeping was completed to their satisfaction and the building and grounds were clean, safe and sanitary. Staff responded quickly when called for nursing services and the program nurse is available when needed. Staff treated the tenants with respect, gave good care. The new program nurse was attentive to their needs and responsive to their medical needs. The new Administrator was a “god send.” Tenants liked the food and voiced no complaints. There were plenty of activities offered and the activities director was “fantastic.” Tenants felt safe and would recommend the program to anyone who wanted to live in an assisted living program.

Program History – The program did not receive any regulatory insufficiencies during this certification period.

On-Site Monitoring Evaluation – The monitor(s) made the observations detailed in the following areas. There were no regulatory insufficiencies during this onsite investigation.

Dated this 11th day of May, 2011.
