RE: Final Recertification Monitoring Evaluation Report – Leland Smith Assisted Living, Wilton, IA

Dear Ms. Wicks:

Enclosed is the **Final Recertification Monitoring Evaluation Report** completed by the Department of Inspections and Appeals (DIA) in accordance with Iowa Code chapter 231C and Iowa Administrative Code (IAC) chapters 481—67 and 481—69. **No Regulatory Insufficiencies were found during this evaluation.**

The review of the recertification documents you submitted has been completed and are accepted. In addition, the State Fire Marshal's (SFM) inspection report has been received as well as the Facility Engineer's approval of the Evacuation Plans for your program.

Enclosed you will find the Assisted Living Program Certificate **S0187** with effective dates of **March 19, 2012 through March 18, 2014.**

If you have any questions regarding this certification, please contact me at 515/281-4116.

Sincerely,

Jim Berkley

Definitions: *The following definitions are relevant:*

Assisted Living Program – A program certified under 481 IAC 69 that provides housing with contracted services to three or more tenants in a physical structure that provides a homelike environment. Services may include but are not limited to health-related care, personal care, and assistance with instrumental activities of daily living. A General Population Program is an Assisted Living Program that is not dementia-specific but may have tenants with cognitive disorder.

Dementia-Specific Assisted Living Program - An assisted living program certified under 481 IAC 69 that serves fewer than fifty-five (55) tenants and has five (5) or more tenants who have dementia between Stages 4 and 7 on the Global Deterioration Scale (GDS), or serves 55 or more tenants and 10 percent or more of the tenants have dementia between Stages 4 and 7 on the GDS, or holds itself out as providing specialized care for persons with dementia, such as Alzheimer's disease, in a dedicated setting.

Regulatory Insufficiency - A violation of a statutory or rule provision within the Code of Iowa (2011) or the Iowa Administrative Code (IAC) governing assisted living programs. A regulatory insufficiency requires a plan of correction to be presented to and approved by the Department of Inspections and Appeals (DIA).

Plan of Correction - A written response to one or more regulatory insufficiencies that are statutory or rule violations. The plan should identify how and by what date each regulatory insufficiency will be corrected, and what measures will be taken to ensure the problem does not recur. The plan is due to DIA within ten (10) working days of the program's receipt of a Complaint/Incident Investigation Report. Depending on the circumstances, DIA may revisit the assisted living program to confirm progress in fulfilling a plan's corrective measures.

Overview: *In preparing this report, the following information was considered:*

Current Program Census

Assisted Living Programs are defined by the type of population served. The census numbers were provided by the Program at the time of the on-site.

General Population Program	
Number of tenants without cognitive disorder:	24
Number of tenants with cognitive disorder:	0
Total Population of Program at time of on-site	24
TOTAL census of Assisted Living Program	24

Tenant/Family Satisfaction Results – A community meeting with 21 tenants was held. The tenants stated they liked living at the Program because they received great care and staff was wonderful. Housekeeping services were completed to their satisfaction and the buildings and grounds were safe, clean and sanitary. Nursing services were available and staff responded immediately or in less than five minutes when called. Tenants stated they received the services expected when the occupancy agreement was signed. Staff was described as wonderful and great, provided the services expected and was trained appropriately. Tenants liked the food, received a good variety of meats, vegetables and desserts, and foods were served at the appropriate temperature. They requested more soups and salads, as well as additional alternative options. Tenants stated they were tired of eating green beans and cottage cheese. Plenty of activities were offered but they requested outside transportation arrangements be found for occasional trips. Tenants felt safe, made their own decisions, were generally satisfied with the Program and would recommend it to others.

Program History – The program did not receive any regulatory insufficiencies during this certification period.

On-Site Monitoring Evaluation – The monitor(s) made observations detailed in the following areas. **There were no regulatory insufficiencies found during this onsite recertification monitoring evaluation.**
