**RE: Final Recertification Monitoring Evaluation Report – Maple Manor Village,
Aplington, IA**

Dear Ms. Quail:

Enclosed is the **Final Recertification Monitoring Evaluation Report** completed by the Department of Inspections and Appeals (DIA) in accordance with Iowa Code chapter 231C and Iowa Administrative Code (IAC) chapters 481–67 and 481–69. **No Regulatory Insufficiencies were found during this evaluation.**

The review of the recertification documents you submitted has been completed and are accepted. In addition, the State Fire Marshal's (SFM) inspection report has been received as well as the Facility Engineer's approval of the Evacuation Plans for your program.

Enclosed you will find the Assisted Living Program Certificate **S0048** with effective dates of **June 11, 2012** through **June 10, 2014**.

If you have any questions regarding this certification, please contact me at 515/281-7039.

Sincerely,

Rose Boccella

Aplington, IA 50604

Date of Monitoring Visit:

April 9, 2012

Monitor(s):

Margaret Kaltefleiter, RN MS

Definitions: *The following definitions are relevant:*

Assisted Living Program – A program certified under 481 IAC 69 that provides housing with contracted services to three or more tenants in a physical structure that provides a homelike environment. Services may include but are not limited to health-related care, personal care, and assistance with instrumental activities of daily living. A General Population Program is an Assisted Living Program that is not dementia-specific but may have tenants with cognitive disorder.

Dementia-Specific Assisted Living Program - An assisted living program certified under 481 IAC 69 that serves fewer than fifty-five (55) tenants and has five (5) or more tenants who have dementia between Stages 4 and 7 on the Global Deterioration Scale (GDS), or serves 55 or more tenants and 10 percent or more of the tenants have dementia between Stages 4 and 7 on the GDS, or holds itself out as providing specialized care for persons with dementia, such as Alzheimer's disease, in a dedicated setting.

Regulatory Insufficiency - A violation of a statutory or rule provision within the Code of Iowa (2011) or the Iowa Administrative Code (IAC) governing assisted living programs. A regulatory insufficiency requires a plan of correction to be presented to and approved by the Department of Inspections and Appeals (DIA).

Plan of Correction - A written response to one or more regulatory insufficiencies that are statutory or rule violations. The plan should identify how and by what date each regulatory insufficiency will be corrected, and what measures will be taken to ensure the problem does not recur. The plan is due to DIA within ten (10) working days of the program's receipt of a Complaint/Incident Investigation Report. Depending on the circumstances, DIA may revisit the assisted living program to confirm progress in fulfilling a plan's corrective measures.

Overview: *In preparing this report, the following information was considered:*

Current Program Census

Assisted Living Programs are defined by the type of population served. The census numbers were provided by the Program at the time of the on-site.

General Population Program	
Number of tenants without cognitive disorder:	<u>14</u>
Number of tenants with cognitive disorder:	<u>0</u>
Total Population of Program at time of on-site	<u>14</u>
TOTAL census of Assisted Living Program	<u>14</u>

Tenant/Family Satisfaction Results – A community meeting was held with 13 tenants. The tenants said it was wonderful living at the Program. They enjoyed being with other people and living with their friends. They described the housekeeping services as beautiful and the grounds were safe, clean and sanitary. Nursing services were available and when the tenants requested assistance staff responded within 30 seconds. The Tenants described staff as very caring and said they treated the tenants very well. Staff was trained appropriately and knew what services to provide. The tenants said they received all the services they expected. The food was very good and tenants had no complaints regarding food. A good variety of meats, vegetables and desserts were offered and foods were served at the appropriate temperature. Plenty of activities were offered and tenants received a monthly calendar. The tenants said they were too busy for any additional activities. The tenants felt safe, made their own decisions, were generally satisfied with the Program and would recommend it to others.

Program History – The Program did not receive any regulatory insufficiencies during this certification period.

On-Site Monitoring Evaluation – The monitor(s) made observations detailed in the following areas. **There were no regulatory insufficiencies found during this onsite recertification monitoring evaluation.**
