RE: Final Recertification Monitoring Evaluation Report – Apple Valley Assisted Living, Osage, IA

Dear Ms. Cosselman:

Enclosed is the **Final Recertification Monitoring Evaluation Report** completed by the Department of Inspections and Appeals (DIA) in accordance with Iowa Code chapter 231C and Iowa Administrative Code (IAC) chapters 481—67 and 481—69. **No Regulatory Insufficiencies were found during this evaluation.**

The review of the recertification documents you submitted has been completed and the documents are accepted. In addition, the State Fire Marshal's (SFM) inspection report has been received as well as the Facility Engineer's approval of the Evacuation Plans for your program.

Enclosed you will find the Assisted Living Program Certificate **S0283** with effective dates of **September 4, 2014 through September 3, 2016.**

If you have any questions in regard to this certification, please contact me at 515/281-7039 or Rose.Boccella@dia.iowa.gov.

Sincerely,

Rose Boccella

Terri Cosselman, Director
Apple Valley Assisted Living
300 Lyndale Street
Osage, Iowa 50461

Date of Monitoring Visit:

October 14, 2014

Monitor(s):

Stephanie Radabaugh, PhD

Definitions: *The following definitions are relevant:*

Assisted Living Program – A program certified under 481 IAC 69 that provides housing with contracted services to three or more tenants in a physical structure that provides a homelike environment. Services may include but are not limited to health-related care, personal care, and assistance with instrumental activities of daily living. A General Population Program is an Assisted Living Program that is not dementia-specific but may have tenants with cognitive disorder.

Dementia-Specific Assisted Living Program - An assisted living program certified under 481 IAC 69 that serves fewer than fifty-five (55) tenants and has five (5) or more tenants who have dementia between Stages 4 and 7 on the Global Deterioration Scale (GDS), or serves 55 or more tenants and 10 percent or more of the tenants have dementia between Stages 4 and 7 on the GDS, or holds itself out as providing specialized care for persons with dementia, such as Alzheimer's disease, in a dedicated setting.

Regulatory Insufficiency - A violation of a statutory or rule provision within the Code of Iowa (2011) or the Iowa Administrative Code (IAC) governing assisted living programs. A regulatory insufficiency requires a plan of correction to be presented to and approved by the Department of Inspections and Appeals (DIA).

Plan of Correction - A written response to one or more regulatory insufficiencies that are statutory or rule violations. The plan should identify how and by what date each regulatory insufficiency will be corrected, and what measures will be taken to ensure the problem does not recur. The plan is due to DIA within ten (10) working days of the program's receipt of a Complaint/Incident Investigation Report. Depending on the circumstances, DIA may revisit the assisted living program to confirm progress in fulfilling a plan's corrective measures.

Overview: *In preparing this report, the following information was considered:*

Current Program Census

Assisted Living Programs are defined by the type of population served. The census numbers were provided by the Program at the time of the on-site.

General Population Program	
Number of tenants without cognitive disorder:	37
Number of tenants with cognitive disorder:	0
Total Population of Program at time of on-site	37
TOTAL census of Assisted Living Program	37

Tenant/Family Satisfaction Results – A community meeting with 28 tenants was held. Maintenance and housekeeping services were timely and to the tenants' satisfaction. Staff was described as well-trained and friendly. Tenants who had used the pendant system stated response was immediate. Tenants stated they loved the personal care received which made them feel at home. More activities off and on and more soup now the weather is getting colder were offered as suggestions to administration. Administration was described as approachable and easy to talk to. Tenants felt safe and would highly recommend the Program to others. Tenants emphasized several times that all staff was professional yet kind.

On-Site Monitoring Evaluation – The monitor made observations detailed in the following areas. There were no regulatory insufficiencies found during this onsite recertification monitoring evaluation.
